# SF44 Process Review

## Current SF44 Process

- Hand write SF44
- Type up SF44 on PIIN Log
- Make 5 Copies Receipts, Log, & other documents for clearance
- Travel to TPBO, FM, RCC, RM to Clear orders and funds
  - Spend time making appointments & waiting in offices
    - 2 people process in TPBO
    - 3 people process in FM
- DA enter SF44 in DDS
- DA updates manual PR ledger
- DA scans doc. for archive
- Hardcopy shipped CONUS
- KO FOO BA RM DA

## Current Review Process

- Time to schedule appointments for face to face meetings
- Manually check & correct Math for extended price & order total
- Check/Correct LOA errors
- May require SF44 re-write or correction (documents must be re-distributed)
- Ratify order if exceeds limit or unauthorized purchase
- Review items purchased for possible alternate KT
- Maintain separate spreadsheets of FOO

## Problems

- Re-accomplish meeting if documents are forgotten
- Lost/missing documents
- Illegibility SF44
- Errors: typos, calculation of order or ledger totals or exchange rate
- Wasted time
  - Duplicating data entry
  - Excessive Paper Reproduction
  - Traveling to Clear
- Lack of oversight/visibility of purchases/cash control from delayed clearing
- Unnecessary Risk due to travel
- Unmatched documents requiring manual tracking
- 1 team mbr may make purchase with the 2<sup>nd</sup> mbr signing later

# Basis of Design

## Resolve or Mitigate Manual SF44 Problems

- o Unnecessary risk due to **travel**
- o No Theater wide **visibility**
- o Delayed **oversight**/visibility of purchases/cash control
- o Lack of **audit ability** of paper process
- o **Illegibility** of SF44/Receipts
- o **Lost** documents
- o **Wasted time**
  - o **Duplicating** data entry
    - Handwrite the form
    - Type up PIIN Log
    - Track in FOO Mgr Log
    - Track in DA
  - o **Excessive** Paper Reproduction
    - 7 copies required of all documents
    - Retention by FOO, PA, KO, DA, RM, TPBO, DFAS Storage
  - o Traveling to Clear
- o **Errors**: typos, calculation of order or ledger totals or exchange rate
- o Unmatched documents requiring **manual tracking** to resolve

# 3in1 Tool

- **Automates the SF44, often used with FOO Program**
  - To conduct on-the-spot purchases of supplies & services when GPC is not available
    - *Not for payment only, CERP or Rewards; Only for unclassified operations*
- **3in1 Tool is comprised of 3 key components**
  - **Handheld Device**
    - Used by FOO/PA to make purchases & capture receipt
    - Maintains purchase and expenditure logs
    - Calculates currency exchange
    - Stores purchase data & transfers it to Prime Database
    - Prints SF44 on portable printer
  - **3in1 Prime Database Module loaded on Joint Contingency Contracting System (JCCS) And Hard Client 3in1 Workstation**

*(JCCS is a fielded system used by contracting for vendor management, and the COCOMs to track ACSA Agreements)*

    - Manage device and FOO/PA access authorization
    - Transfers data to/from device
    - Stores purchase and payment data
    - Clears orders online
    - Provides management reports

# 3in1 Tool Device Features

- **All SF44 data captured/recorded/transmitted to Prime Database**
  - Receiver/ Vendor **physical signature** recorded on touch screen
  - FOO and PA use **Digital Signatures**
  - Device calculates order total & currency exchange
- **Additional Tools for FOO/PAs**
  - **Device Dash board** easily tracks available funding and total orders
  - **Track expenditure** ledger by Cash Advance or Purchase Request
  - **Rerun** an order to quickly process a repeat order
  - Create a **shopping list** to select from when at the market
  - **Cancel/Return** an item ordered if required
  - Access prices on device for **market research**
  - May record vendor location by **GPS** coordinates
  - Tools: **calculator, measure and currency conversion**
  - **Reports** available from the device: Purchase Log, PR & Cash Ledgers
- **Device Camera** captures image of receipt, items, approval memos

# Bin1 Tool System Features

- **System wide visibility of purchases**
  - Data available w/o physical clearing when cash exchange is not required
- **Online role based review/reconciliation process (PBO,KO,DA,RM)**
  - Information available daily without need for face-to-face clearing when cash exchange is not required
  - Allows messaging between clearance reviewer and FOO
- **Upload/Store supporting documents for retention with SF44 e-file**
  - FOO: Commander's approval, Legal Review, C6 Coordination, Hand Receipt
  - PA: PR document, Cash Advance Doc, Currency Exchange Receipts
  - Appointment Letter to FOO and PA
- **System Maintains Accounting:**
  - Records PR # Amt LOA -- ability to track multiple PRs

# 3In1 Tool System Features (cont)

- **Management reporting capabilities on Workstation**
  - Track Expenditures, Purchases, Cash in the field, Obligations, Available funds
- **Push financial/procurement updates/changes to device remotely**
- **Data Security/Redundancy**
  - Data retrievable from damaged device if MicroSD card is salvageable
  - Data is backed up to the prime database
  - Stolen can be deactivated from the system by the KO or Sys Admin
  - Supports Manual SF44 as device back up
    - Special PIINs issued for manual orders to be entered into the workstation and paper SF44 scanned and loaded for automated clearing and processing
- **Transfer data other business systems:**
  - Transfer payment data directly to financial systems (DDS)
  - Transmit SF44 and receipt to EDA for document retention
- **Account for change in fiscal year when issuing a PIIN**

# Process Cycle

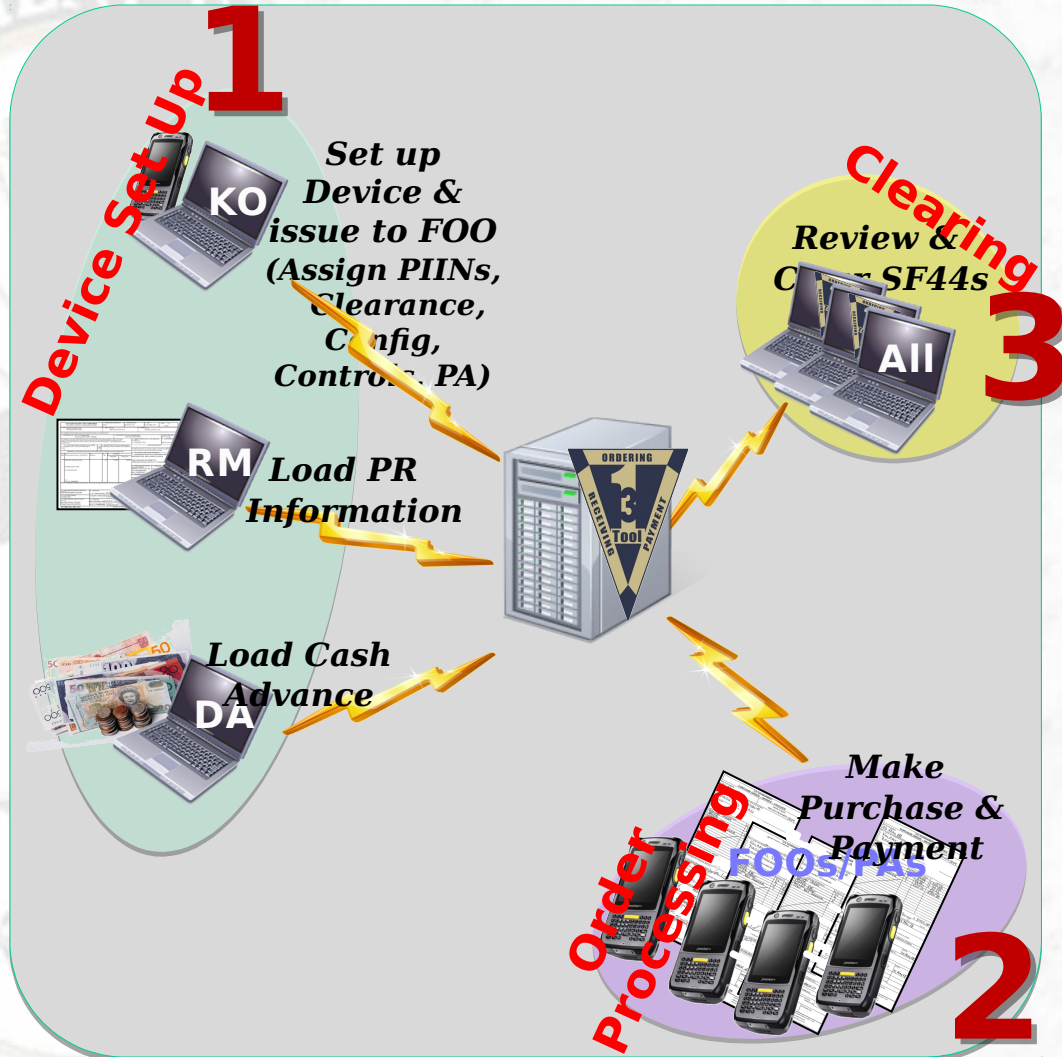

Data exchange between systems is manual, except step 5 if using DDS

# Basic Process

- Initial AOR Setup
  - AOR structure
  - User Registration
  - CC Letter & PR

- Device Set Up
  1. Resource Mgr-PR Info
  2. Disbursing Agent
    - DDS: Execute Cash Advance
    - 3in1: Input Cash Amt
  3. Contracting Officer
    - Associates FOO/PA
    - Issues PIIN Block
    - Assigns Controls

Device Transmission  
Methods:  
GSM / WIFI / Ethernet / USB

# Order Clearance

- Orders transmitted from device to 3in1 Prime Database for clearance
- Reviewers can view all information from the SF44 and supporting documentation
  - Approve, disapprove, or flag orders as required
    - Comments from disapproved or flagged orders are sent back to the device where the FOO can review and respond to comments/questions
- Once approved, orders go to next review in the process

## Step 7

### Clearance Review Workflow Process:

- 1) PB Review
- 2) KO Clearance
- 3) RM Review

# PA Clearance & Data Transfer

- DA downloads file from Prime Database of cleared orders to a shared drive/CD
- File uploaded into DDS
  - File uploaded like any other CAPS file
  - Voucher number assigned
  - PA 1081 accountability reduced
  - Payment transmitted to STANFINS
  - Print & sign 1081 for final PA clearance or issuing/returning cash
- DA inputs SF44 voucher number in the Prime Database
  - Either manually or via file transfer
- Release 1.2 = 3in1 Module transfers SF44 document retention

**PA only required to travel to FO to return/receive cash**

# Training & System Support

- **Training Material**

([http://www.acq.osd.mil/dpap/pacc/cc/contingency\\_tools.html](http://www.acq.osd.mil/dpap/pacc/cc/contingency_tools.html))

Specialized Training for KO, DA & RM, FOO&PA, Reviewer

- Training Videos
    - KO - 2hr
    - DA - 45 min
    - RM - 30 min
    - FOO/PA - 1.5 hr
    - Reviewer - 30 min
  - Training Manuals
  - Checklists (KO, DA, RM, FOO, Installation)
  - Reference Guides and GTAs
- **Users will take the video training for their Role**
  - **Users will be provided Training Materials, Reference Guides, Checklists and Reference Sheets (GTAs)**

# SF44 Process Improvements

- Immediate **visibility** of transactions and payments
- Provide **audit trail** of all transactions in AOR
- **No travel** required to clear when no cash replenishment/turn in
- Improved data and purchase **control**
- **Eliminate redundant** data entry
- Enables analysis of expenditures and purchase act
- Improve cash **management and tracking**
- No handwriting to decipher, illegible paperwork, lost receipts, or **miscalculations**
- No excessive document **reproduction, storage, or shipping**
- Daily **reconciliation** available without face to face meetings
- **Eliminates duplication** of payment risk
- **Reduces time/work:**  
procurement/accounting/reconciliation

# System Usage

Activity	Date	Usage	Method
Iraq Pilot	Dec '10-July '11	94 Orders, 847 Clearing Actions 84 Users 18 Teams	<ul style="list-style-type: none"><li>• Online/Offline: Workstation = Online; Device = Offline (LAN)</li><li>• Only USD (1 PR &amp; Disb per PA); Payment trans. To DDS</li><li>• Clearance structure similar to Afgh. (7 levels)</li></ul>
Afghanistan Pilot	July '11-Present	10 Orders, 57 Clearing Actions 32 Users 2 Teams	<ul style="list-style-type: none"><li>• Online/Offline: Workstation = Online; Device = Offline (LAN)</li><li>• Only USD Currency (1 PR &amp; Disb per PA); Payment transfer to DDS</li><li>• Clearance structure: CDR, PB, KO, DA, RM</li><li>• GSM confirmed Capable</li></ul>
CJOA-Horn Of Africa (HOA)	Jul '11- Present (AOR wide 1 Oct)	577 Orders, 2,068 Clearing Actions 157 Users 30 Teams	<ul style="list-style-type: none"><li>• Multiple PRs and Disbursements to a PA</li><li>• PAs issued Foreign Currency &amp; USD; no DDS</li><li>• Limited Clearance structure (3 Levels: KO,DA,RM)</li><li>• Connection: Workstation = Online; Device = Online: LAN/Offline (cellular on trial basis)</li><li>• Expanding to GSM and Workstation Offline use</li></ul>
Joint Dawn Exercise Fort Bliss	Jan '12	Trained over 180 personnel	As of 12 Jun 2010
USAFINCOM	User Survey Question (200 KO/FM/FOO)		
	Device was easy to use		93%
	Executing a SF44 in the 3in1 Tool is easy		95%
	Clearing a SF44 in the 3in1 Tool is easy		94%
	3in1 will save time in executing/clearing SF44		96%
	3in1 will help reduce errors when executing and clearing SF44s		92%
	3in1 Tool should be used in DoD to process SF44 in contingency operations		97%

# User Survey Comments

Experience		90 Surveys included comments; most notable below:
MAJ McMillan	FOO& KO	Using the 3in1 definitely streamlines the process and provides an easy way to track SF44s and clear FOOs. We could use this system in Germany.
MAJ Farmer	KO &FOO	We need this everywhere!
MAJ Johnson	DCC Chief	I am looking forward to using this device in theatre.
SSG Gnagie	CCO	This is the best device since the iPhone. My recommendation is to implement this device and never go back to the paper format of the SF44.
Mr Wical	CCO	This “program” has been in-need “forever”! I can’t wait for fielding.
SFC Howard	KO&FOO	The knowledge of technology of today’s soldiers makes this device ideal to be implemented in our day to day contingency operations.
MAJ Feist	KO	Very useful tool for contracting officers and FOO’s!
SSG Galdo	KO Spec	This will be great in the field!
SSG Goins	KO Spec	I love this! It takes me back to my Logistic Supply days when I used the PDCD. I cannot wait to get one when I deploy!
SFC Franee	CCO	We need this now!!!
SSG Escobar	CCO	This is an awesome tool that must be implemented in all contingency environments. I was blown away at how simple the process becomes when using this device.
SFC Anderson	CCO	Great suggestion would be to put in NCDES school for SIC training.
Mr Rodriguez	KO	The tool is very impressive. Based on the capabilities, it will streamline processes and will be very efficient for contingency operations. Most importantly, it promotes “paperless” environment. Very user friendly, especially among Generation Y.
SSG Perez	CCO	Great tool and should be used and readily available in today’s military throughout garrison and theatre operations.
SSG McKellon	CO Spec	Awesome product will greatly improve FOO effectiveness in a contingency environment.
IT Rivera	FOO	Is a great tool, which provided me as a company XO more time to do other things other

# **FOO Program AAA Audits**

## ***Operation New Dawn (Iraq)***

### **Issues Identified by FOO Audits**

- **“Commanders and FOO Managers lacked oversight of purchases”**
  - 3in1 provides visibility of purchases, ensures proper clearance review
- **“FOOs made purchases without proper approval or justification”**
  - 3in1 procurement control warning messages will help mitigate this problem and prevent FOOs from exceeding purchase threshold
- **“Orders were not reviewed by Commander”**
  - 3in1 will ensure all orders are cleared through all levels of clearance
- **“Orders were not reviewed by TPBO and were not recorded on accountable records”**

# Myths about the 3in1 Tool

- **Tool requires a lot of bandwidth - False**
  - 1 Order & image from the device is ~182K; (Version 2.5 improved transfer speed)
  - Workstation is operating in HoA with 256K speed
- **System is difficult to use - False**
  - Majority of user feedback confirms ease of use after using the system over a short period of time
  - Accepting change from manual to automated system is more the issue
- **Need funds to procure devices - False**
  - Devices are available for fielding
- **System not operationally ready, system only for pilot use - False**
  - System has been fully operational since Mar 11
  - CJTF-HoA has deployed system for all active FOOs in AOR
  - 2 Future releases scheduled in Feb/Jul for added capabilities
- **Tool is an FM Tool / RCC should not issue devices to FOO - False**
  - Tool replaces the serialized SF44 booklet issued by contracting
  - Tool is a handheld contract writing device for Purchase Orders controlled by the KO
  - Tool replaces GPC, a contracting program, for austere environments

# Implementation Requirements

- **System must be approved by CIO/IA for installation on local networks**
- **Endorsement/Direction from Financial and Procurement leadership to implement in AOR**
  - **Single Lead responsible for implementation to coordinate with PMO**
  - **Financial and Contracting POCs for implementation**
- **Hardware requires accountability**
- **End to End Process Review:**
  - **What is your current process and how will automating the SF44 process impact this process?**
    - **Is there a policy that directs specific paper letters or physical meeting to review files?**
    - **Recommend an SOP for automated process**
  - **Which FOO/PA teams should be issued a device?**
    - **Are they active buyers?**

**3in1 Website: [http://www.acq.osd.mil/dpap/pacc/cc/contingency\\_tools.html](http://www.acq.osd.mil/dpap/pacc/cc/contingency_tools.html)**

# Security Controls

- **Users**

- Users register with CAC on 3in1 Prime Database and create a DoD Strong Password for device login
- FOO & PA use digital signatures to sign SF44
- FOO&PA assigned to specific device

- **Data**

- Data on device and in transmission is encrypted
- Device data--stored on FIPS 140-2 Compliant MicroSD Chip & bound to device
- Order data locked by device

- **Transmission**

- Devices are registered with 3in1 Prime Database by System Administrator
  - Device comes with self signed certificate verified during registration
  - Unique ID assigned to Device by Prime Database
  - Certificate and ID used to authenticate all transactions between device and workstation

- **Device**

## 3in1 Tool Website

### Introduction

Welcome to the 3in1 Tool Website. This website is designed to provide essential information, tools, and training for the 3in1 tool.

The 3in1 tool is a technology-based solution to record and transfer data used by the Defense agencies when conducting on-the-spot, over-the-counter, field purchases of supplies and non-personal services (cash and carry type purchases when the government purchase card cannot be used). The 3in1 Tool is a small lightweight device that will capture and record purchase, payment, and receiving information including the user's receipt of goods and vendor acknowledgement of payment. The device will automatically transfer that data to the 3in1 Module in the Joint Contingency Contracting System (JCCS).

# System Pilots

- **Testing**

- **Conducted 2 user assessments with 24 recently returned FOO/PA/KO/DA**

- Overwhelming support from users for continued development/fielding

- **Successfully Completed Fielding Assessment Test conducted by JITC Aug 2010**

- Met standards of Requirements Doc & Traceability Matrix
- 50 Participants: KO/FOO/PA/DA from USA/AF/USN
  - 450 Orders, 24 PRs/Advances, FY10 & FY11 PIINs, Simulated FY change, 30 transfers from 3in1 Workstation to DDS

- **Field Pilot: Iraq - Camp Victory/Liberty 15 Dec 10 - 16 Jul 11**

- **Usage: \$347K / 94 Orders, 847 Clearing Actions, 84 Total Users, 18 Teams (11 Active)**

- **Successes:**

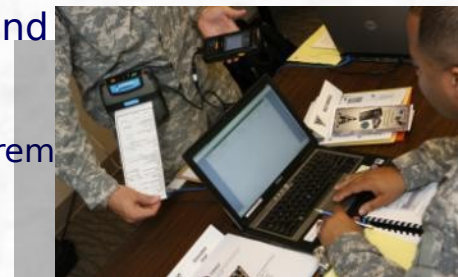

- Feedback: From departed FOOs & PAs who used the device has been mostly positive
- Identified procedural and System issues key for automating the manual process

- **Lesson Learned:**

- Automation requires increased coordination with all functions involved in the end to end process
- Theater and Base Lead critical to success, Command Support and
- Identified 15 Financial Procedural Conflicts
  - 8 Closed; 7 Interim Solutions (Long term = DFAS SOP: 6; IRS: 1)
    - DFAS/OSD(C) SOP - Standardize electronic processing, storage requirement procedures

- **Functions Used:**

- Online/Offline: Workstation – Online: Device – Offline (LAN)

# Horn of Africa (CJTF-HoA)

## •Lead: USN Djibouti

- **Operation:** Pilot Jul – Oct, **Deployed AOR-Wide 1 Oct**

- **Locations:** Djibouti, Ethiopia, Comoros, Tanzania, Uganda

- Many FOOs have very limited or no connectivity and operate device offline until connection is available

- **AOR Policy mandates 3in1 Tool use**

- RCC located in Djibouti with limited CCO resources -- FOOs are an extension of the contracting office and make most micro-purchases
  - Device required for all FOOs expected to place 3-4 orders while down range (60 days)

- **Functions Used:**

- Multiple PRs and Disbursements to a PA
  - PAs issued Foreign Currency and USD; no DDS transfer
  - Limited Clearance structure (3 Levels: KO, DA, RM)
  - Connection: Workstation = Online; Device = Online: LAN/Offline (cellular on trial basis)

- **Feedback to Use & Factors that drove AOR wide deployment**

- Increases visibility, audit ability, and accountability
  - Reduces calculation errors and tracks multiple currency exchanges for team
  - Reduces FOO/PAs requirement to maintain additional logs and clearing/prep time

## MEMORANDUM FOR RECORD

SUBJECT: Deputy Commander, Support United States Forces - Afghanistan Review/Approval of Memorandum of Notification (MON) and Request for User of the 3in1 (Field Ordering, Receiving and Payment) Tool in Support of Operations Enduring Freedom (OEF)

### 1. References:

- a. Memorandum, OSD Acquisition, Logistics and Technology, Subject: Memorandum of Notification (MON) and Request for User of the 3in1 (Field Ordering, Receiving and Payment) Tool in Support of Operations Enduring Freedom (OEF), 30 Aug 2011.
- b. Memorandum, TEAE-CET, Subject: Safety Confirmation for the 3in1 Acquisition Tool in Support of Fielding, 8 Aug 2011.
- c. Memorandum, MCHB-IP-OHH, Subject: Health Hazard Assessment Report (RCS MED-388) No. 69-MP-0EWW-11, 3-in-1 Acquisition Tool, August 2011, 18 Aug 2011
- d. Memorandum, USFOR-A J8, Subject: Authorized Deviation in Clearing Procedures during the 3-in-1 Pilot Test, 24 Aug 2011.
- e. 3in1 Tool Program CJOA-A Pilot Deployment Plan, 15 Sep 2011.
- f. Army Regulation 700-142, Materiel Release, Fielding and Transfer, 16 Oct 2008.

2. USFOR-A DCDR-S reviews and concurs with Acceptance of Conditions for the Urgent Materiel Release of the Pilot Deployment of the 3in1 Tool for Field Ordering, Receiving and Payment in Support of Operations Enduring Freedom (OEF) IAW the above reference memorandums. USFOR-A requests that the Project Officer continue to monitor all known safety concerns in the field and to be cognizant for any unforeseen safety concerns, work mitigation, and to keep USFOR-A informed as this product moves to Full Material Release (FMR).

3. The point of contact for this memorandum is MAJ John Masternak, USFOR-A J-3 Acquisition Advisor, DSN 318-449-4736, [john.t.masternak@afghan.swa.army.smil.mil](mailto:john.t.masternak@afghan.swa.army.smil.mil).

Deputy Commander, Support  
United States Forces-Afghanistan

# Iraq User Feedback

- **9 Experienced FOOs in Iraq Surveyed:**

- 9 stated Tool would save time executing SF44s
- 9 stated Tool would help reduce errors
- 7 stated Tool was easy to operate
  - 2 rated question neutral

- **Comments from Experienced FOOs**

- **LT Rivera:** "Is a great tool, which provided me as a company XO more time to do other things other than paper work (SF44) and save me a lot of travel time"
- **Chief McDaniel:** "3in1 is a very valuable tool that saves time & resources"
- **SFC McBride:** "I think it's great and could save a lot of time for everyone"

# Operation Joint Dawn Exercise Survey Feedback

- **160 Students trained on 3in1 Tool - 138 submitted surveys**
  - Students conducted exercises executing SF44s on device and clearing orders on workstation

Student Survey Question	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
Device was easy to use	0	0	7%	26%	67%
Printer was easy to use	0	0	4%	18%	78%
Executing a SF44 in the 3in1 Tool is easy	0	0	5%	24%	71%
Clearing a SF44 in the 3in1 Tool is easy	0	0	6%	22%	72%
3in1 will save time in executing SF44	0	0	4%	12%	84%
3in1 will save time in clearing SF44s	0	0	4%	16%	81%
3in1 will help reduce errors when executing and clearing SF44s	0	0	8%	16%	76%
3in1 Tool should be used in DoD to	0	0	4%	14%	83%

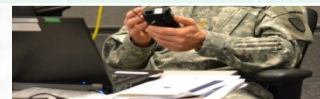

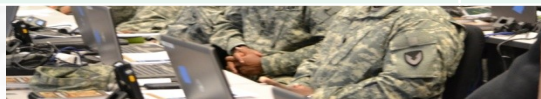

# USAFMCOM OST Training Survey Feedback

## 11 Students trained on 3in1 Tool - 8 Surveys Received

- Students conducted exercises executing all functions of the 3in1 system from end to end
- Students will conduct future deployment training and evaluation exercises for USA NG, Reserve, and AD finance units

Student Survey Question	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
Device and Printer was easy to use	0	0	0	2	6
Executing a SF44 in the 3in1 Tool is easy	0	0	0	2	6
Clearing a SF44 in the 3in1 Tool is easy	0	0	0	4	4
Process to advance cash to an agent was easy	0	0	0	5	3
PA disbursement info remained accurate at all times	0	2	2	3	2
Transferring payment data into DDS was executed easily	1	0	0	4	3
Captured voucher numbers was assigned without difficulty	0	0	1	3	4
3in1 tool will help reduce errors and provide better visibility in contingency operations	0	0	0	5	3
3in1 will reduce errors when executing and clearing SF44s	0	0	0	3	5
3in1 should be used in DoD to process SF44 in contingencies	0	0	0	5	3

- De-Commit excess funds
- Review all Documentation
- Close out PR

# 3in1 Tool

## Field Ordering, Receiving & Payment

### System Description Automating the SF44

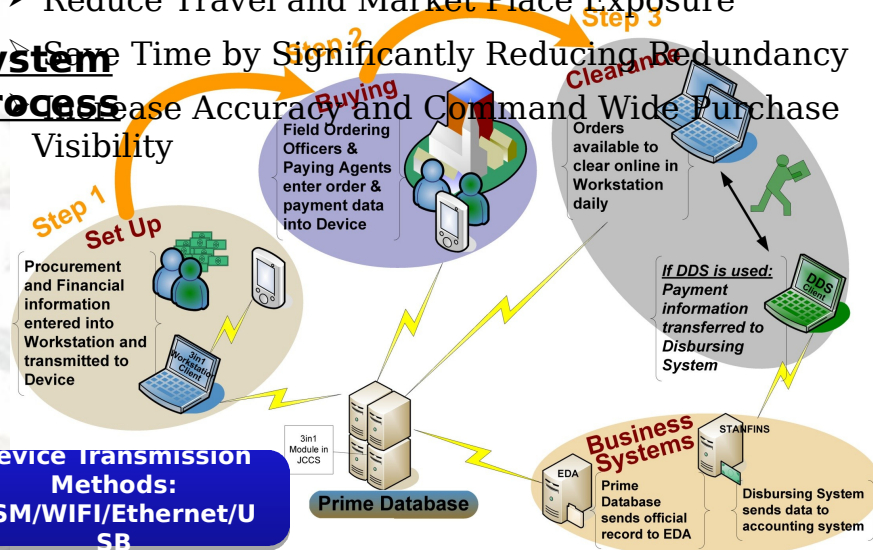

Automates 3 key processes into 1 solution normally accomplished with the SF 44 to purchase supplies & services used in contingency environments. Tool records and transmits cash & carry type purchases & payment data to the prime database for remote reconciliation and review, when conducting on the spot, over the counter, field purchases, where GPC use is not feasible.

- Improve Audit Ability and Accountability of Cash Payments and Purchases
- Provide Immediate Visibility & Reconcilability of Purchases

- Reduce Travel and Market Place Exposure

**System Process**

- Save Time by Significantly Reducing Redundancy
- Increase Accuracy and Command Wide Purchase Visibility

### Pilot/Deployments: Over 270 Active Users

Activity	Date	Usage
Iraq Pilot	Dec '10-July '11	94 Orders, 847 Clearing Actions
Afghanistan Pilot	July '11-Present	7 Orders, 53 Clearing Actions
CJOA-Horn Of Africa (HOA)	Jul '11- Present (AOR wide 1 Oct)	650 Orders, 2155 Clearing Actions
Joint Dawn Training-Fort Bliss	Jan '12	Training over 180 personnel Total Data as of 12 June 2012
USAFINCOM	Mar '12	Train the Trainer

### User Feedback (over 200 surveyed)

User Survey Question (KO/FM/FOO)	Agreement
Device was easy to use	93%
Executing a SF44 in the 3in1 Tool is easy	95%
Clearing a SF44 in the 3in1 Tool is easy	94%
3in1 will save time in executing/clearing SF44	96%
3in1 will help reduce errors when executing and clearing SF44s	92%
3in1 Tool should be used in DoD to process SF44 in contingency operations	97%
